

Experience Unlimited provides its members with many opportunities to network in their job search.

Attend weekly meetings. Arrive early, exchange business cards and contact information over a cup of coffee. At some meetings, you'll have a chance to ask the entire group for contacts at a company you're targeting. Working closely in a committee, you'll get to know other people who can help you while you help them.

Sign up for an EU workshop, where you not only learn job-seeking skills and social media skills, but also receive a copy of the class roster for further collaboration.

Visit the EU office in Concord for job search resources and a chance to connect with fellow EU members in a less structured setting.

Join a Success Team, where a small group of members works together to focus their job search.

Once becoming an active member, participate in the EUCCC Yahoo Group e-mail to receive timely news, information and job leads.

Access to EU membership database for those who have permitted their contact information to display. Perform queries upon those members to identify people within the organization who may become mutually beneficial to know in your industry. This database is also made available to hiring managers, recruiters and staffing agencies.
